

Airbus A320 Training Files

Contributed by Administrator

Airbus A320 Aircraft. DIRECT DOWNLOADING Uniquely offered only by us!

Aircraft training/study aid that will help you learn your aircraft fast!

Need to study a specific system? No problem just click on the link in the the Table of Content and all the information will be right there. No thumbing through manuals to find the data. Just click and hover. Start in the order that works best for you

No waiting for a printed manual, posters, or a disc in the mail! (and you know CD's go out of date). Just install the program and request your registration key. You will be studying in less than 24hrs!

Using Information mapping techniques we put the information at the tip of your mouse cursor interactively. Check out this video to see how the program works: [{youtube}oJHxFSBaVx4{/youtube}](#)

Need to know more??? Check out the extra information below:

The A320 accommodates 150 passengers in a typical two-class cabin layout, and has a 3,000nm/5,550km range. It can be powered by CFM56-5 or IAE V2500 engines.

The data displayed refers to TYPICAL seating configurations and maximum range:

DIMENSIONS metric imperial Overall length 37.57 m. 123 ft. 3 in. Height 11.76 m. 38 ft. 7 in. Fuselage diameter 3.96 m. 13 ft. Maximum cabin width 3.70 m. 12 ft. 1 in. Cabin length 27.50 m. 90 ft. 3 in. Wingspan (geometric) 34.09 m. 111 ft. 10 in. Wing area (reference) 122.6 m² 1,320 ft² Wing sweep (25% chord) 25 degrees 25 degrees Wheelbase 12.65 m. 41 ft. 6 in. Wheel track 7.59 m. 24 ft. 11 in. 3 Aircraft in one file!

Includes dozens of COCKPIT PHOTOGRAPHS and System pop-ups!! Hyper-linked contents explain ALL Cockpit Panels and Systems:

- Left Overhead
- Lower Overhead
- Center Overhead
- Upper Overhead
- Right Overhead
- Glareshield
- Side and Forward Instrument Panels Standby Instruments
- PFD and NAV Displays
- Main Landing Gear Panel Pedestal
- Audio Radio Transponder Weather Control Panels Quick Link Table of Contents Acronyms. All Systems are covered including:

Electrical Schematic, 16 ECAM situations with functional ECAM Actions Hydraulic Schematic, 13 ECAM situations and Functional ECAM Actions Flight Control Diagrams and Explanations Fuel Schematics, 11 ECAM situations, Diagrams and ECAM Actions Air Conditioning Bleed Air, 8 ECAM situations and Actions, and Diagrams Engine Bleed Air, 12 ECAM situations and Actions and Diagrams. More ECAMS, Schematics, Explanations and Diagrams: Wheel - Air Conditioning - Cruise - Cabin Pressure - Engine APU - Door / Oxy - Horizontal Stab - Rudder - Ram Air Turbine Flaps - Slats - Load Alleviation - Wing Tip Brakes and Computers Avionics Ventilation (all FIVE Configurations) - Pneumatics Safety Pressurization System - Cargo Smoke System - ALL PFD Modes NAV Symbology - MCDU Message Lists - EFIS Architecture - Brakes Landing Gear - Low Energy Graphs - Navigation Displays - PFD Displays Predictive and Reactive Windshear - GPWS - EPR and N1 Options. And of course, the Auto Thrust System and Auto Pilot Systems

Free Downloads include more Differences Summaries, Quick References for Simulator and flying the line: Limitations/memory items and Oral Questions with ANSWERS, and so much more.
